

THE ALMOST INVISIBLE ROOF VENT!

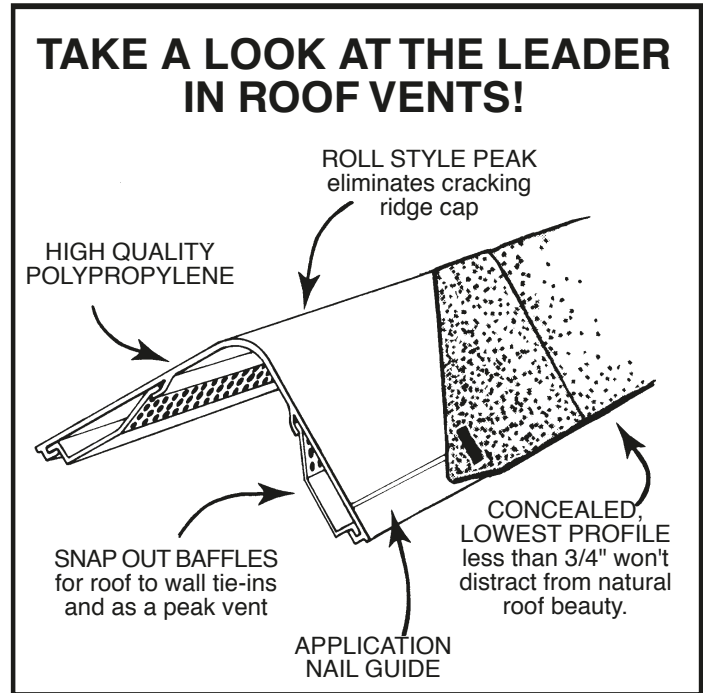

It's easier to install...

It looks better...

It conforms to all shingles and adjusts to various roof pitches.

- Easy to handle, less than 3.25 pounds and convenient 5' length
- High density polypropylene, specially formulated for severe temperature range application
- 15 square inches of venting per linear foot of ridge
- Lowest profile and adjusts to various roof pitches

*Patent Pending

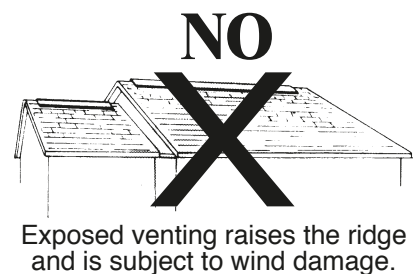

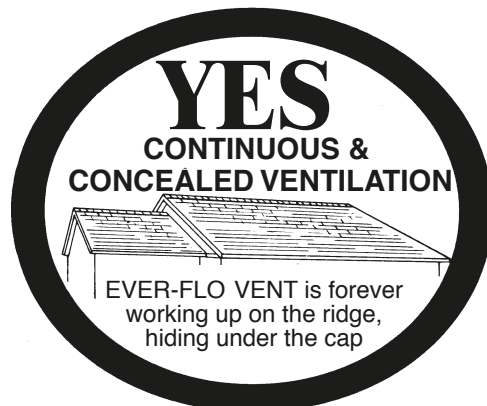

30 YEAR WARRANTY: EVER-FLO VENT carries a 30 year warranty. It protects against manufacturing defects that would impair performance.

EVER-FLO VENT meets the typical new shingle warranty ventilation requirements. EVER-FLO VENT allows for proper ventilation when used with sufficient soffit vents. Your attic will be drier and cooler.

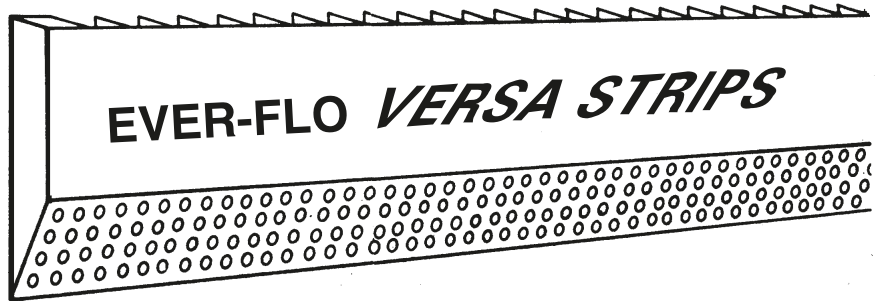

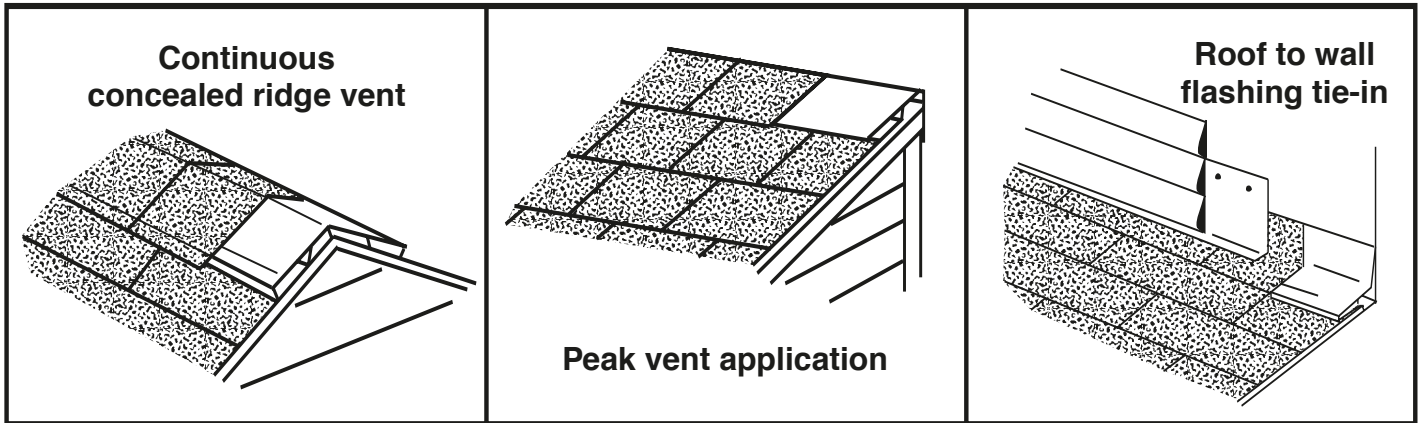

EVER-FLO VENT is responsive to today's environmentally sensitive applications.

The low profile of the EVER-FLO VENT gives it a sleek appearance. It outperforms other roof vents and meets or exceeds all national building codes (FHA, SBC, BOCA, ICBO and CABO) when used with sufficient soffit ventilation.

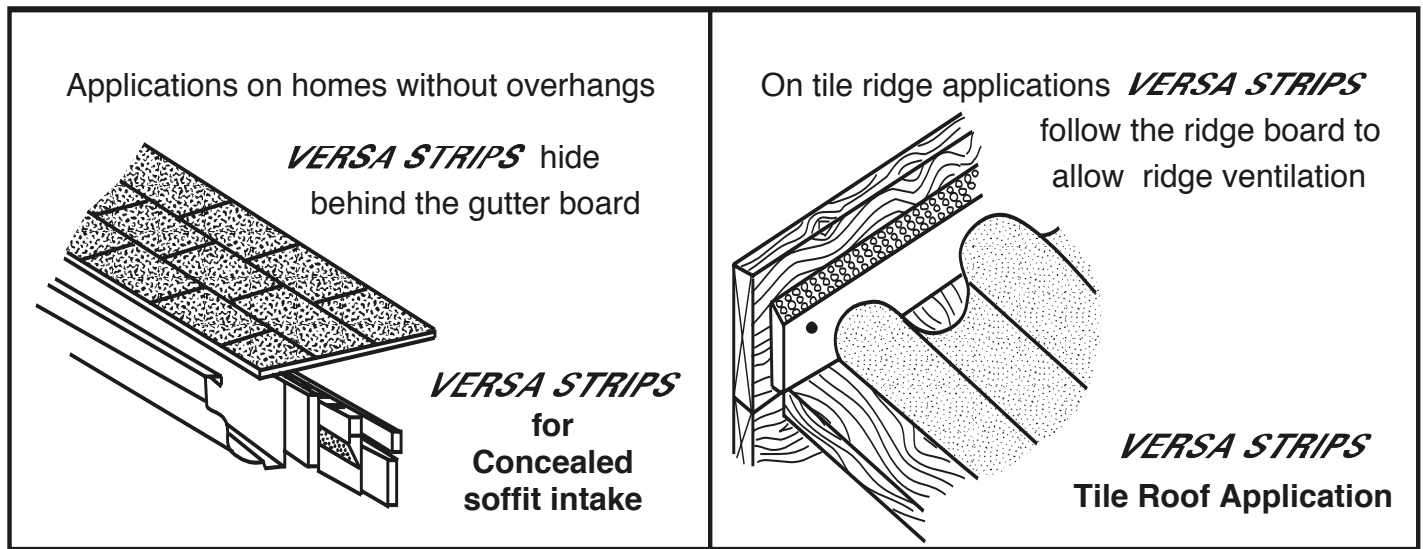

EVER-FLO VENT is versatile...

With our snap out baffles it easily adapts to the following applications
ALL FROM ONE VENT!

For concealed soffit application and ridge applications
VERSA STRIPS are 3 3/8" x 30"
